Kamativi Mining Company (KMC) gives facelift to local school

Today, Kamativi Mining Company (KMC) held a ceremony to hand-over a refurbished classroom block to Kamativi Primary School. The renovations were done to promote and enhance education through infrastructural development for the Kamativi community.

The hand-over ceremony received extensive attention and support from various stakeholders including local representatives and community leaders who included chiefs, parents, the police, teachers and pupils.

Following reports that a classroom block at Kamativi Primary School was in disrepair, gravely affecting the pupil's learning environment, KMC executives took it upon themselves to rescue the situation and resolved to repair the facility. Wei Xu from KMC's Mining Construction department was responsible for the ultimate repairs of the classroom block. The block, consisting 3 classrooms, took approximately half a month for renovations to be completed before pupils resumed normal lessons.

During the handover ceremony, KMC representative Wang Yiyu delivered a warm speech saying KMC values and adheres to various Corporate Social Responsibility (CSR) programs by giving back to the society in which it operates in through active participation in community development and welfare. This classroom renovation project is not only the company's support for community education, but reflects on KMC's vision to enhance the learning environment for children in Kamativi to help them realize their dreams.

Kamativi Primary School headmistress also delivered a speech at the ceremony, expressing her heartfelt gratitude to KMC. "We appreciate the selfless assistance by Kamativi Mining Company. This block of classrooms has transformed our school and our pupils can now learn in comfort, with peace of mind. This gesture by KMC does not only enhance the quality of our education, but also stimulates pupils' enthusiasm for learning."

Community and parents' representatives also gave speeches, expressing their deep gratitude to Kamativi Mining Company for this generous donation. They said the classroom renovation project has not only improved the learning environment of children, but also strengthened the cohesion and centripetal force of the community. The police representative emphasized the important role KMC is playing in the community to foster safety and development, adding that they will continue to work with the company to develop a harmonious community.

The handover ceremony ended successfully with all participants grouping together for a photo. The happy smiles and grateful eyes of the children deeply moved everyone present.

KMC will continue to be socially responsible by actively participating in community development through educational, cultural and economic development of the Kamativi community. The classroom renovation project is just a tip of greater things to come. In the outlook, KMC seeks to invest and channel more resources to support the sustainable development of the Kamativi community.

About Kamativi Mining Company

Kamativi Mining Company is a modern mining enterprise dedicated to resource development and environmental protection. As we focus on lithium production and processing, KMC has an active corporate social responsibility program, committed to improving the social fabric of local residents while contributing significantly to economic and social development of Kamativi.
